VIVA

Basic product specification

Installation to the façade, reveal

Suitable for all types of exterior blinds except Cetta 50 and Titan.

Blind with self-supporting rails and the possibility to integrate an insect screen.

The blind's upper profile incl. the slat pack is located in the ready-made box in two versions – either in under-plaster, or revealed.

The box sides include side boards to connect to the guide rails.

For the under-plaster version, the box may be fitted on the inside with insulation made of hardened polystyrene, Styrodur, or Aluthermo.

Suitable for motorised control.

Components needed:

- box, standard box height: 190 mm, 220 mm, 260 mm, 300 mm
- self-supporting guide rails (up to 42 variants)

• Version with the Fe upper profile 56×58 mm

Standard blind dimensions:

VIVA blind	Width (mm)		Height (mm)		Guaranteed area (m ²)
	min.	max.	min.	max.	max.
without insect screen	600	4000*	500	4000	12
with insect screen	720	1800	500	2500	3

*This is the max. box width!

** For the max. blind height per slat types, see Table on p. 35

Self-supporting EB 2-01010-00004

For blind width exceeding 3500 mm:

- Al upper profile 58x60 mm
- Al brace profile with stirrup

Brace, Al (2-01394-0000)

Max. blind height (mm) per slat type and box size (without insect screen)

Standard dimensions

Blind type/Box height in mm	190	220	260	300	Max. area (m ²)
Cetta 65	800	1100	1700	2200	8,8
Cetta 65 slim	1500	2000	2600	3300	8,8
Cetta 80	900	1300	2000	2600	10,4

BRAVO
Basic product specification

Installation to the façade, reveal

Suitable for all types of exterior blinds with the upper profile 56×58 mm, Fe.
Blind with self-supporting rails and the possibility to integrate an insect screen.
The blind's upper profile incl. the slat pack is located in the ready-made box in a rounded version.
The box sides include side boards to connect to the guide rails.
The standard version is always with an 8 mm textile strip.
Only with vertical lower rail.

Suitable for motorised control, the motor is always located in the centre.

- Components needed:
- box, standard box height: 210 mm
 - self-supporting guide rails

- **version with the Fe upper profile 56×58 mm**

Standard blind dimensions:

BRAVO blind	Width (mm)		Height (mm)		Guaranteed area (m²)
	min.	max.	min.	max.	max.
without insect screen	600	3500	500	4000	10,5
with insect screen	720	1800	500	2500	3

By using this version, you will save 40 mm of the box height (cover sheet height) compared to the standard version.
